

## ACTION ALERT

**The Senate is betraying  
the promise of better  
mental health care.**

#Act4MentalHealth

Last week, the U.S. Senate introduced the Better Care Reconciliation Act (BCRA) of 2017.

**This new bill seriously cuts into mental health coverage by:**

- allowing states to let health insurance plans drop mental health and substance use coverage.
- capping and reducing Medicaid, making it harder for people to get mental health services.
- not requiring that Medicaid cover mental health services after 2019.

### #Act4MentalHealth

U.S. Senators are debating the bill this week, and we need EVERYONE to take action.

**Sen. Pat Toomey (R-PA) supports the bill. Contact him to say Pennsylvanians will suffer if it passes.**

**The following Senators are either against the bill, or undecided. We NEED them on our side.**

#### CONTACT:

[Sen. Bob Casey \(D-PA\)](#)  
[Sen. Lisa Murkowski \(R-AK\)](#)  
[Sen. Susan Collins \(R-ME\)](#)  
[Sen. Rob Portman \(R-OH\)](#)  
[Sen. Jeff Flake \(R-AZ\)](#)

Tell them the BCRA will:

- cause millions of people to lose their mental health coverage.
- devastate our community mental health system by cutting Medicaid funding.

**Ask them to vote NO on the BCRA!**
